

TEVA Pharmaceutical Industries Ltd

Building Projects Group Ltd constructed new Pharmaceutical Cleanroom & Packing area for the largest generic drug manufacturer in the world.

Location: Runcorn
Project: Teva AR19
Duration: 24 weeks

Challenge

The new clean room and packing area was needed to increase filling capacity within the Ophthalmic Facility. The ground floor of the facility is to be extended to allow for the construction of a new Filling Room and dedicated Online Packing Area.

Building Projects Group needed to consider the sensitive nature of Teva Runcorn operations by ensuring that works are performed in a controlled, safe and clean manor.

Solution

Building Projects Group Scope of works included:

- Health and Safety Management
- Projects Management
- New partitioning
- New ceilings
- Fire rated vision panels
- New resin floors throughout packing area

- Vinylid walls and floors in cleanroom
- ISO7 Clean room Construction
- Kingspan composite panels
- Decoration
- Dorek Doors
- Specialist finishes

Benefits

Building Projects Group maintained production in other areas of the business while completing the clean room and packing area.

Careful planning and communication together with the strict monitoring of health and safety was essential to ensure a successful completion of works. Dave Humphreys, (Project Manager for Teva) 'AR19 is the best cleanroom built on site'.

The new facility will allow Teva Pharmaceuticals to continue to grow into the world leading pharmaceutical company.
