

TEVA Pharmaceutical Industries Ltd

Building Projects Group Ltd constructed new training facility for Global pharmaceutical business Teva Pharmaceutical Industries Ltd.

Location: Runcorn
Project: Teva Training
Duration: 30 weeks

Challenge

The new facility would be built over existing canteen and office space. The existing areas would need to stay live during the project. Air tight temporary screens were required where clean room area's meet the new facility during the construction phase. All delivery's will need to be carefully planned due to space on site.

The main challenge for Building Projects Group was the wide scope of works required in a tight timeframe

Solution

Building Projects Group Scope of works included:

- Health and Safety Management
- Projects Management
- 70,000 sq ft of partitioning
- 35,000 sq ft of MF & lay in grid ceilings
- Fully height glazed partitioning
- ISO 7 Clean room Construction

- Ips, cubicles and vanity installation
- Doors
- Decoration
- Vision panels
- Flooring
- Fire Protection
- Specialist finishes

Benefits

Building Projects Group completed this high-end office space and high care facility on time and budget. Careful planning and keeping the client informed with progress allowed for all critical items to fall into place.

Internal site audits from our health and safety mangers maintained our attitude of going above and beyond to make sure everyone is working safety.

The new facility will allow Teva Pharmaceuticals to continue to grow into the world leading pharmaceutical company.
