Exceeding
Expectations

Constant
Communication

Minimum
Disruption

As Europe's Leading Floor Distributor, Headlam Group PLC required additional, intelligently designed office facilities inside one of their distribution warehouses.

Challenge

Headlam Group PLC required an office area in a distribution warehouse that wouldn't compromise on space, style and safety. Building Projects Group worked closely with senior members of staff to find a solution which had all Headlam's requirements with a time frame and budget to match. As the office's were being constructed inside of their distribution centre in Birmingham, zero disruption was paramount.

Works Completed

Building Projects Group worked closely with Headlam Group to design and plan a new office layout. Building Projects Group studied every aspect and made sure that constructing the offices in a key location of the warehouse wouldn't compromise on storage space. Works included;

- Construction of large open plan office
- Directors offices
- Meeting Rooms
- Trade counter area
- Door sets and joinery
- Glazed screens
- Suspended ceilings
- Canteen area
- Break out rooms
- Restrooms
- M & E installation
- Fire curtain installation

"I would like to thank all of your team for the professional way they handled the task, they understood what was required and got on with the job." [Roy Povey. Financial Director - Headlam Group PLC](#)

Solution

Building Projects Group worked tirelessly to achieve both the strict time and monetary guidelines. Executive members of staff at Headlam Group were involved every step of the way, were amazed at the quality of the finish and the short time scale in which we worked.
